

RF RADIAL FLOW

The Perry **RF radial flow** is an efficient, highly effective system for removing odorous compounds from municipal and industrial processes. These systems can utilize a wide variety of adsorbent media for specific treatment. A few being:

- Lower capital cost and reduced operating costs
- High efficiencies of odorous compounds
- Small foot-print and the ability to treat up to 40,000 cfm in a single 12' diameter vessel
- High quality FRP construction manufactured to exceed industry standards
- Removable carbon retention screen. (Other radial flow manufacturers do not offer an internal basket that utilizes an easily removable screen.)

Perry Fiberglass Products, Inc.

Experts in designing and manufacturing odor control and air pollution control equipment

RF RADIAL FLOW

EASY, SIMPLE AND EFFECTIVE SOLUTION TO TREAT ODOROUS AIR UP TO 42,000 CFM

FEATURES	BENEFIT
Small Footprint	Up to 40,000 cfm unit in a single 12' diameter vessel.
Proprietary Interior Diffuser	Through extensive CFD and practical modeling the BR is designed with a special air diffuser systems.
High-quality Construction	Vessel and internal components are manufacture using high quality, corrosion resistant materials to provide a long service life.
Operator-friendly	Besides fan components, the BR has no moving parts. Carbon is removed, filled and self-levels.
High Quality Media	The BR radial flow is available with a wide variety of media. We recommend pelletized activated carbon for our radial flow units.
FRP Flanged Carbon Ports	High-quality FRP flanged ports providing a better seal and longevity.
Carbon Retention Screen	Unlike other radial flow carbon unit manufacturers; our radial flow is designed to have a removable carbon retention screen.

Perry Fiberglass offers the following complete line of odor control and air pollution control products

- B1 single bed
- B2 dual bed
- RF radial flow
- Chemical scrubbers
- Controls
- FRP ductwork systems
- AMCA certified dampers
- Grease filter/ mist eliminators
- Control panels
- Fans
- Activated carbon media
- FRP chemical storage tanks
- FRP hoods/ covers
- Sound enclosures and silencers
- Field services
